

September 28, 2021

Dear Sirs/Madam,

We are informing you of the change in our plan of school activities after October 1, 2021.

We mentioned in the October issue of our school newsletter, *Akatsuki*, that we would continue the choice system of coming to school and attending classes online even after October 1st, and that we would inform you later if there are any changes. However, after further discussions regarding our educational activities including the preparation for the athletic meet and the recent situation of infection, we have decided to conduct our school activities after October 1st as follows.

1. Friday, October 1st:

All students shall stay at home and attend classes online for safety regarding Typhoon No. 16.

2. Saturday, October 2nd

(1) Eiken examinees shall come to school as usual in the morning instead of coming to school in time for the exam.

(2) Students who are not taking the Eiken exam shall continue to attend classes online or in the classrooms as before.

3. After Monday, October 4th on:

All students shall come to school and follow the regular school activities as usual.

We appreciate your understanding and cooperation.

Sincerely,

Fr. D.Tagawa S

Principal

Gyosei International Primary School
